

VarioCAM® HD Series

Camera Accessories

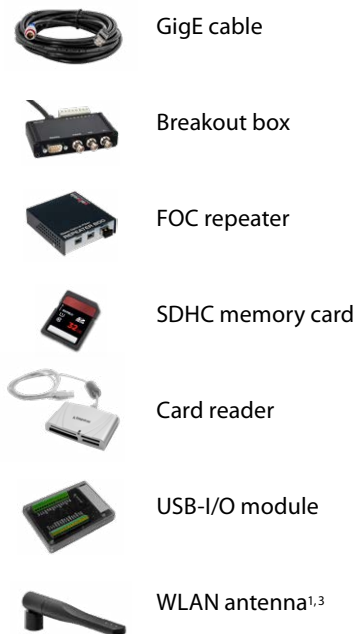

InfraTec offers a broad range of high-quality accessories for all models of the camera series VarioCAM® High Definition. Using equipment designed especially for the corresponding camera model users can flexibly adapt their cameras to a changing test and measurement environment and optimise them for daily indoor and outdoor use as well. All orders are subject to our terms and conditions.

Power Supply

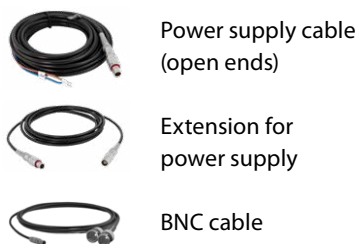

Data Transfer

Miscellaneous

Connecting Cable

Electromagnetic compatibility (EMC) is given when several electronic devices work together in a common environment without problems. All thermography systems provided by InfraTec have been developed in accordance with the legal limits for EMC. However, interference cannot be 100% excluded in all environments. Relevant measures for maintaining EMC in an industrial environment are illustrated in this guide: <https://www.ifm.com/obj/EMC-Pocket-Guide-ZVEI-english.pdf>

VarioCAM® HD Series

Price List for Camera Accessories

Item number	Denotation	Number of items	Net price apiece in EUR*	Item number	Denotation	Number of items	Net price apiece in EUR*
